

IMPRESSIVE BASS RESPONSE

The B-1000 is a compact, versatile cabinet capable of producing a solid, low distortion bass response from 16 Hz through 1kHz. This superior quality unit provides an impressive foundation for virtually any speaking system. One specially designed, extremely high output 15" speaker, housed in a ported enclosure, provides the driving force for creating a thrilling bass sound. The B-1000 is designed to be placed on the floor with the speaker "loaded" against a wall.

Solid hardwoods and hardwood veneers accentuate the visual appeal of the cabinetry. Handcrafted from carefully selected materials, the case has been designed to complement virtually any decor. The furniture-grade cabinet is available in a wide selection of handrubbed wood finishes and is elegantly detailed by solid wood capping and trim.

The impressive sonic performance, coupled with the beauty of the cabinetry makes the B-1000 an outstanding choice and an exceptional value.
